

KANOKCHAT SAMANSUK

Junior Software Developer | Flutter | Firebase | FastAPI | AI Applications

Software Developer with hands-on experience in Flutter, Firebase, FastAPI, Next.js, and AI-integrated application development. Experienced in building full-stack mobile and web applications, including real-time assessment systems, RAG-based assistants, and computer vision features. Seeking a Junior Software Developer / Full-Stack Developer role to contribute to real-world digital products.

Location: Pathum Thani, Thailand
Open to Bangkok / Ayutthaya / Pathum Thani

TECHNICAL SKILLS

Core Skills: Python, JavaScript, Dart, SQL, REST API
Frontend: React, Next.js, HTML, CSS
Mobile: Flutter
Backend: FastAPI, Node.js, PHP
Database / Cloud: Firebase, Firestore, MySQL
AI / Data: RAG, FAISS, TensorFlow Lite, Computer Vision, PyTorch
Tools: Git, GitHub, Linux, Firebase Cloud Messaging
IoT : NodeMCU ESP8266 , ESP32, Arduino (Sensor & Motor Control)

Projects

JitDee (Mental Health Assessment Mobile Application) – 2025

Flutter, Firebase, TensorFlow Lite, ML Kit

- Built a full-stack mental health screening mobile application using Flutter and Firebase, supporting PHQ-9 assessment, deep assessment workflow, appointment requests, and role-based access control.
- Implemented real-time appointment status tracking and notification flow using Firebase Cloud Messaging and local notifications.
- Integrated on-device emotion detection using TensorFlow Lite and ML Kit with isolate-based processing to improve UI responsiveness.

Agri-Hacks — AI Agricultural Knowledge Assistant (Internship – Japan) –2025

Kagawa National College of Technology (KOSEN), Japan

Next.js, Flask, FastAPI, PyTorch, Ollama (Gemma2), FAISS, BLIP-2

- Developed an AI agricultural knowledge assistant during an international internship at Kagawa National College of Technology, Japan.
- Built a RAG-based Q&A pipeline using FAISS, E5 embeddings, and Gemma2 via Ollama for domain-specific agricultural knowledge retrieval.
- Developed backend APIs with FastAPI / Flask and integrated computer vision features using PyTorch and external AI APIs.

Social Network Mobile Application (Flutter) –2024

Flutter (Dart), PHP REST API, MySQL

- Built a Flutter-based social media application with authentication, CRUD features, chat, and multimedia content support.
- Designed REST APIs using PHP and MySQL for user, post, and media management.

IoT Electrical Control System –2021

- Developed an IoT electrical control system using NodeMCU ESP8266, Firebase, and relay modules for real-time device control.

EDUCATION

Rajamangala University of Technology Thanyaburi

Bachelor's Degree in Information Technology and Digital Communication

GPAX: 2.90 / 4.00

(Expected Graduation: 2026)

LANGUAGE

Thai – Native

English – Basic to Intermediate

Internship

Research Assistant (International Internship – Japan)

Kagawa National College of Technology (KOSEN), Japan – 2025

- Conducted AI research and system development in AgriTech domain
- Built RAG-based agricultural knowledge assistant
- Worked in international research lab environment

SOFT SKILLS

- Problem Solving
- Critical Thinking
- Adaptability
- Teamwork
- Responsibility
