

KANOKCHAT SAMANSUK

Junior Software Developer | Web, Backend & AI-Assisted Development

kanokchat1602@gmail.com | +66 95-912-6758

GitHub: github.com/Kanokchat01

LinkedIn: linkedin.com/in/kanokchat-samansuk-2ab00a402

Recent IT graduate with hands-on experience developing web and mobile applications, backend REST APIs, databases, and AI-integrated systems. Skilled in JavaScript, Python, HTML, CSS, SQL, MySQL, Git, FastAPI, Flask, React, and Next.js. Experienced in integrating RAG, FAISS, LLM, and computer vision workflows into applications through academic projects, an international internship at KOSEN Japan, and the AMD Developer Hackathon. Eager to apply AI-assisted development for coding, debugging, refactoring, and rapid prototyping while growing as a Junior Software Developer.

TECHNICAL SKILLS

Programming :	Python, JavaScript, SQL, PHP, Dart
Web & Backend :	HTML, CSS, React, Next.js, FastAPI, Flask, Node.js, REST API Development
Mobile & Database :	Flutter, Firebase, MySQL, Firebase Firestore
AI Integration :	RAG, FAISS, LLM Integration, PyTorch, TensorFlow Lite, Computer Vision, Ollama
AI-Assisted Development :	Prompt Engineering, Debugging, Refactoring, Rapid Prototyping
AI Coding Tools:	ChatGPT, Claude Code, Codex, Google Antigravity
Development Tools :	Git, GitHub, Postman, Linux

EXPERIENCE

Research Assistant Intern — AI & AgriTech Project — Global Engineer Training Program

National Institute of Technology, Kagawa College (KOSEN), Japan

| Sep – Dec 2025

- Built a RAG-based agricultural knowledge assistant using FAISS, E5 embeddings, and Gemma 2 via Ollama.
- Developed Python backend APIs with FastAPI and Flask to connect the knowledge retrieval and AI inference workflows.
- Integrated PyTorch and BLIP-2 computer vision capabilities for agricultural image analysis.
- Delivered a strawberry cultivation support prototype as the final project of the international training program.

PROJECTS

CaptionForge-THAI — AI Video Captioning Agent | AMD Developer Hackathon: ACT II

| 2026

- Built an AI video captioning agent that generates multi-style captions using an LLM-based workflow and Fireworks AI models
- Ranked 4th out of 117 teams (score 0.91; top 0.92) on AMD's Automated Scoring Leaderboard, Track 2: Video Captioning.

JitDee — Mental Health Assessment Mobile App | Flutter · Firebase · TensorFlow Lite · ML Kit

| 2025

- Developed a mental health mobile app with Flutter and Firebase, including PHQ-9 screening, assessment workflow, and role-based access control
- Implemented real-time appointment status tracking and push notifications using Firebase Cloud Messaging.
- Integrated on-device emotion detection using TensorFlow Lite and ML Kit with Dart isolates to maintain UI responsiveness.

Social Network Mobile Application | Flutter · PHP REST API · MySQL

| 2024

- Developed a social network mobile application with authentication, CRUD posts, real-time chat, and media uploads
- Built RESTful APIs with PHP and MySQL for authentication, content management, and data persistence.

EDUCATION

Rajamangala University of Technology Thanyaburi (RMUTT)

Bachelor's Degree in Information Technology and Digital Communication

| Graduated April 5, 2026

LANGUAGES & SOFT SKILLS

Languages: Thai (Native) · English RT-TEP 4.0 (Intermediate) CEFR - B1

Soft Skills: Problem Solving · Critical Thinking · Adaptability · Teamwork · Responsibility
